

27 April 2012

Dear Dr. Oliver Markley

The Journal of Futures Studies would like to congratulate you for winning the inaugural Jan Lee Martin prize of 2011 for your essay titled "Research and Action toward the Upside of Down".

This award, given annually, was established by the late Jan Lee Martin, reflecting her desire for futures studies to more effectively communicate futures theories, methods and approaches.

Winners are decided by an editorial committee within the Journal of Futures Studies and Peter Lazar, Jan Lee Martin's widowed husband. The award amount is \$500 AUD; we will be in touch shortly to arrange payment to you.

On behalf of the Journal of Futures Studies, editors and management, many congratulations! We hope this will affirm and encourage your work.

Professor Sohail Inayatullah
Editor in Chief, Journal of Futures Studies

Dr. José Ramos,
Senior Consulting Editor, Journal of Futures Studies

Professor Jiang Bang Deng
Director, Graduate Institute of Futures Studies, Tamkang University
